OBJECTIVE

Seeking to gain a computer science-based internship for the summer of 2015 that will allow me to attribute my skills while also growing in an environment conducive to both professional and experiential development.

EDUCATION

The University of Georgia, Athens, GA

August 2012 - Present

Bachelor of Science: Computer Science; Japanese Minor

Cumulative GPA: 3.59/4.00

LEADERSHIP EXPERIENCE

Project H.O.P.E Athens, GA

February 2014 - Present

Founding member of a campus organized club that seeks to develop and enhance education, wholeness, and values in underprivileged children by providing tutors, community, and service labor.

Vice President

March 2015

- Assists the President in the discharge of duties.
- Prepares the Annual Business Report.
- Oversees all committee work and the management of assignments.

Project Manager

March 2014-March 2015

- Administrate campus events to recruit tutors that provide services for children within the local community.
- Manage the development and improvement of recreational facilities, property, and our central tutor resource center.
- Network with organizations and committees that have partnered in promoting our objectives by providing donations in excess of \$6,000 within this past year.

LeaderShape Institute Norcross, GA

May 2014

A week-long intense leadership program that cultivates integrity, values, and diligence in growing leaders.

Participant

- Interviewed and selected from a pool of hundreds of students to attend.
- Honed active listening skills through a series of interactive discussions that required constructive feedback.
- Collaborated with a team of fifty fellow participants to better develop and utilize leadership attributes such as maintaining integrity, effectively working as a team, and sustaining a healthy disregard for the impossible.

VOLUNTEER EXPERIENCE

Oasis Athens, GA

January 2014 – November 2014

An organization that facilitates after school tutoring services to local, underprivileged elementary school children.

Tutor

- Provide an average of three hours of tutoring per week to 4th grade students with a total amount of ninety hours provided.
- Instill and reinforce core-values and principles while teaching and communicating with the students.
- Coordinate with fellow tutors and leaders in regards to the growth and development of our tutoring community.

The Institute of Electrical and Electronics Engineers (IEEE) Athens, GA

August 2014-Present

Student Branch at the University of Georgia (UGA) that was recently established in 2013 to uphold the mission of IEEE of fostering technological excellence and furthering the professional development of students.

Vice Chair (Web Committee)

March 2014

- Interacted directly with the IEEE website by updating information and making necessary design changes.

PROJECT EXPERIENCE

Unix Shell Project Athens, GA

November 2014

- Created my own basic version of the Unix Shell that was able to implement all the knowledge I learned of Unix up to that point such as file input/output, files and directories, processes/threads, signals, sockets, interprocess communication, etc.

Tetris Game Project Athens, GA

April 2014

- Worked with a partner where we communicated effectively and efficiently to plan out the concept of Tetris and implement the design in a timely manner. Gained the knowledge of the importance and effectiveness of working with a team.
